

PROFESSIONAL SOLUTIONS

SMART HUB

Reliable Supplies, Every Time.

“DECADES OF MASTERY | TRANSFORMATIONAL RESILIENCE”

SMART HUB brings intelligence and efficiency to your supply and tool management. Based on advanced remote product reading technology and backed by Würth’s service, We ensure the right products are always available – exactly where and when you need them.

Key Benefits

Efficient Stock Management

Automatic product identification and replenishment reduce bulk storage and ensure availability without overstocking.

Up to 40% Less Waste

Transparent, demand-driven replenishment helps avoid excess material use and minimizes waste.

Traceability

Track consumption in real time with clear reporting. Every user is identified, so costs are always allocated to the right cost center.

Flexible Solutions

Whether as a space-optimized storage system or a container solution (6m/9m/12m),

AUTHORIZED & SECURE ACCESS

TRANSPARENCY & ACCESSIBILITY

COST ALLOCATION

PROCESS COST REDUCTION

WÜRTH SMARTHUB EFFORTLESS AND SEAMLESS STOCK REFILL

Cabinets

Cabinets feature access control to ensure products are securely managed. Access is granted only to authorized users, while shelf adjustments and cabinet servicing are provided by Würth representatives.

Check-out Room

The Check-out Room is an unmanned, automated warehouse – always open, always ready – combining the convenience of a self-service store with the efficiency of a fully automated logistics system.

Containers

The Smart Supply Container is a mobile, automated warehouse that brings secure and efficient storage directly to your site. It combines the flexibility of a portable solution with the reliability of a fully automated logistics system, ensuring 24/7 access to the right products, exactly where they are needed.
