

PERFECT FOR CUSTOM STORAGE: THE ORSY® SHELVING SYSTEM

Overview of all shelf modules

DECADES OF MASTERY | TRANSFORMATIONAL RESILIENCE

Over 40 different modules
are available

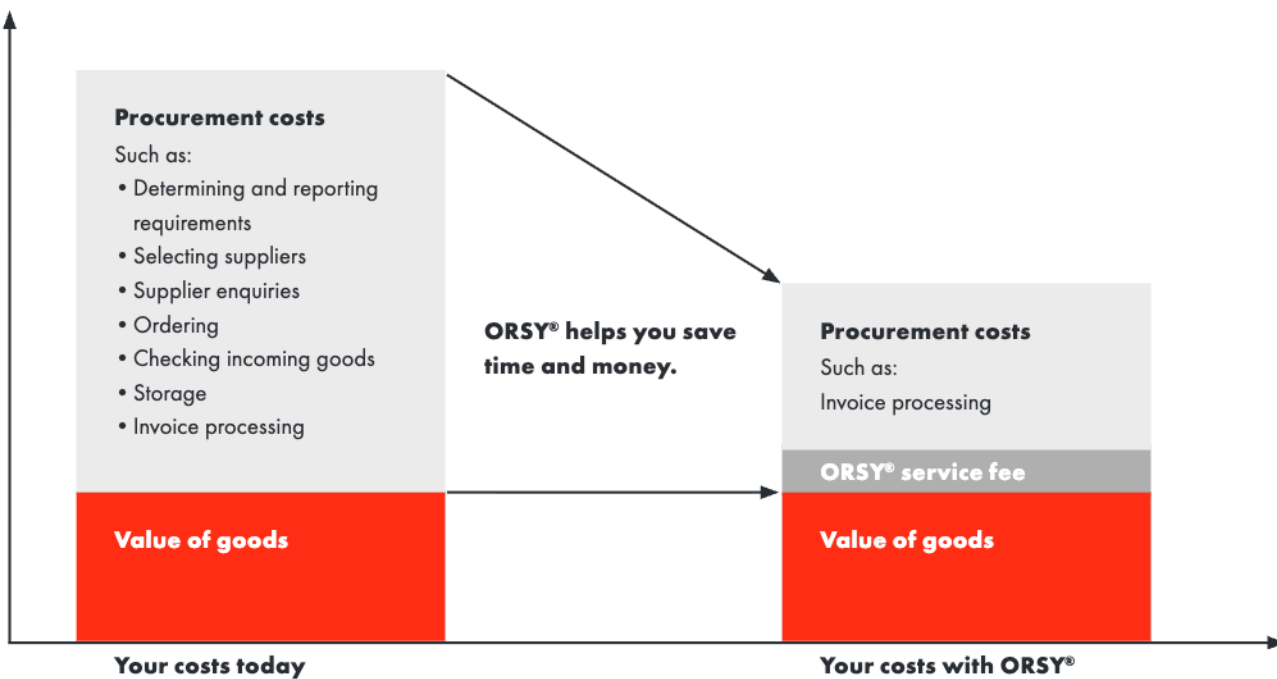

ORDERLY STORAGE CAN BE SO EASY WITH A SYSTEM...

ORSY® means order with a system. Our goal is to supply a shelving system that is tailored exactly to your individual work-flows and that stores the items you really need for your work.

Customised shelving components that can be combined as required are available for the various products.

Thanks to clever ordering systems and regular support from your Würth sales representative, ORSY® will reduce your procurement and storage costs for small parts.

THE ORSY® SHELVING SYSTEM

Our services for you

► Defining the shopping cart

Together with your Würth sales representative, you will define the content of your shelving. This ensures that it meets your specific requirements and workflows.

► Shelf planning

Your Würth sales representative will do the planning for you and you will receive a detailed illustration of how your shelving system could look.

► Assembling the ORSY® shelving system

We will fully assemble the shelving system and add our labels. The advantage of this: You do not have to invest any time and can start working with the new storage system straight away.

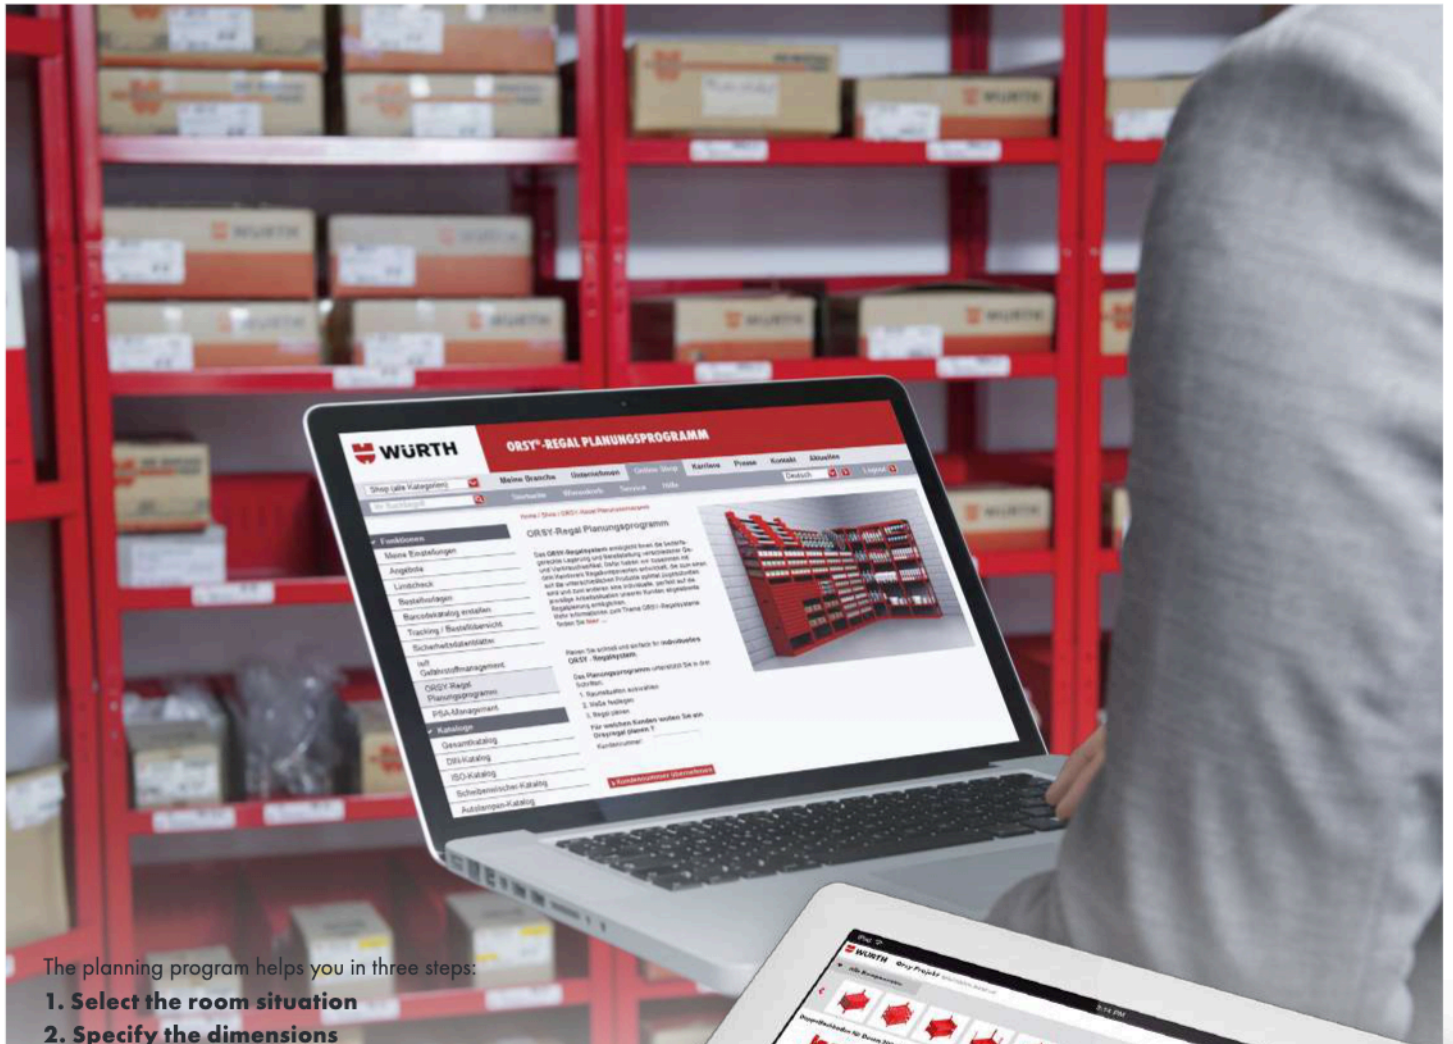

► Shelving service

Your Würth sales representative will look after your shelving system – they will check the stock levels, reorder products, put the goods away for you and keep the shelving clean. This means the system looks neat and tidy at all times and achieves the promised benefits.

ORSY® PLANNING TOOL

Assemble your own customised ORSY® shelving system simply and quickly with our online planning tool with 3D display.

The planning program helps you in three steps:

1. Select the room situation
2. Specify the dimensions
3. Plan the shelving

During the planning stage, you can:

- Plan a straight design or a corner design
- Select from over 40 modules
- Finalise and order your shelving

FIND OUT FOR YOURSELF!

Take a look at our planning tool:
www.wuerth.de/planungstool

You have to log into the Würth online shop before you can start your shelf planning.
